

Fab-Shop Details

| | |
|---------------------------|---|
| Location: | Senthamangalam Village. 50 Km distance from Chennai, and 5 km distance from Sunguvarchatram. |
| Nearest Biggest Industry: | From L&T ECC work shop Kanchipuram 2km towards Chennai. 500 mtrs from the Chennai – Bangalore highway main Road. |
| Area: | 85,000 sq. feet open fabrication yard with 9 feet RCC compound wall constructed from the floor level, One 20 feet main gate provision for safeguard the steel material. |
| Road: | 40 feet Road approach from Bangalore highway to the factory any type of trailer can go and come back at any time. |
| Power: | 150 HP power connections, with stand by Diesel Generator 120 KVA Capacity Available. |
| Shed: | 4500 sq. feet covered shed with 2 nos of 5 M.T. Hoist arrangement |
| Crane: | (i) 5T capacity Hoist along with Monorails arrangements insided shed for rolling facility and mobile crane 10 & 20 M.T. Capacity. |
| Machinery: | 1) 30 mm THK x 2500 mm width Rolling M/c., Plate Bending M/c. with Pre-punching Facilitated. 2) 15 Nos. Welding Generator (advani) 3) 8 Nos. Welding Rectifier 4) 5 Nos. Mig Welding M/c. (CO ₂) 5) 2 Nos. 48 mm Dia Pedastal Drilling M/c. |

- 6) Magnetic Drilling M/c.
- 7) As required Grinding M/c., Cutting M/c., and other required Hand tool
- 8) 2 Nos. Sand Blasting Equipment
- 9) 20 Mtr Span with 20 Ton Capacity Electrical operated crane (EOT) is under construction

- Production:
- 1) 150 to 200 M.T. of steel structure fabrication with blasting & painting per month
 - 2) Upto 30mm THK any type of vessel fabrication with blasting & painting.
 - 3) Minimum 350 dia pipe and maximum 3Mtr dia pipe with 30 mm THK can be rolled and Upto 12.5 Mtr. length pipe assembly welding and Hydrotesting can be done.
- NDT:
- Radiographic Test Ultrasonic Test, Magnetic Partical Test, Dye Penetration Test is available.
- Hydrotesting:
- Upto 50Kg / Cm² Hydrotesting pumps with all accessories for Hydrotesting of Vessels, Pipes and Tanks at Factory.
- Water Facility:
- 200 feet depth x 9" dia borewell is available inside our factory. Bore is having enough sweet water for construction purpose.
